WHOLESALE POWER AND TIER ADJUSTMENT

Wholesale Power costs are included in the kilowatt-hour charges and are subject to adjustment annually. The monthly rate will be adjusted by a factor necessary to maintain TIER (Times Interest Earned Ratio) as set forth by the Mortgage Agreements between the Cooperative and the lending agencies of RUS and CFC and as set by the Cooperative Board of Trustees. As of May 1, 2018, the lighting adjustment is \$0.0000 per kWh and is included in the rate above.

EXTENSION OF FACILITIES

Overhead facilities will be installed from existing lines in accordance with approved Line Extension Plan.

EXISTING SUBDIVISIONS

Street lighting service will be provided in existing residential subdivisions in compliance with signed petitions by all the owners of residential lots within the subdivision. Payment for construction costs will be required in accordance with existing Rules and Regulations.

NEW SUBDIVISIONS

Street lighting service will be provided in new subdivisions with the execution of a formal URD (Underground Residential Development) agreement, including formal restrictions as executed under Restrictive Covenants that require the property owners in the subdivision to contract with Santee Electric Cooperative for the installation and continuing monthly payment to Santee Electric Cooperative by each residential consumer based on the current applicable rate schedule. As part of the URD agreement a lighting layout will be agreed upon with any additional contribution in aid to construction cost required by the developer for the purchase and installation of the lighting fixtures. Poles and fixtures will only be installed as dictated by services being installed to residences in the subdivision. The developer may enter into a separate agreement for the installation of any additional lighting fixtures.
